

EVENING NURSE

Department: Health Services

Reports to: Director of Health Services

UFR#: 108

The Center provides a full range of educational, residential and treatment programs designed to help children reach their full potential. The goal of maximizing independence serves as the foundation of all Center programs. Each program has been developed to address varying skills and multiple levels of functioning.

The Center serves students between the ages of 3 and 22 diagnosed with autism, learning disabilities, language delays, intellectual disability, behavior disorders, and related disabilities. The Center's programs and services are designed to accommodate a broad range of functional levels and varying degrees of disability.

Overall Responsibility

Under the supervision of the Director of Health Services, the Evening Nurse provides primary nursing care to the residential students during the evening hours.

The Evening nurse will be working a full-time (40 hour) schedule
